Doctor Name: HEALTH CHECK

Use low fat / double toned / skim milk for coffee/tea, making curds or paneer.

- Use healthy oils such as rice bran / groundnut / olive / mustard / gingelly (use a combination of oils)
- *Make a multigrain flour using any 3 or 4 of the following:
- Bajra (pearl millet) / foxtail millet (navane akki) / little millet (samai) /kodo millet/ barnyard millet/proso millet/ green gram/chana/wheat germ or bran/oats bran
- High fibre vegetables: Beans, broad beans, ladies finger, ridge gourd, bottle gourd, ash gourd, cluster beans, bitter gourd and all green leafy vegetables

Exercise recommendations: As advised by your doctor.

- Walking / jogging / interval training / gym [45] minutes per day for 6 days a week.
- Yoga, meditation also helps in controlling stress and in overall health!
- Be more active throughout the day! Walk for 10 minutes every hour throughout the day, climb stairs and walk to your work!
- Avoid processed, packaged and instant foods as they are high in chemicals, harmful fats and sugar
- Can take two whole eggs in a week, other days only egg whites.

Others: Have small frequent meals. Do not skip meals. Avoid oily, bakery and processed food. Avoid Sweets and maida. Include green leafy vegetables and gourd vegetables abundantly. Use cold pressed oil instead of refined oil (half a liter per person in a month). Include iron rich food like eggs, fish, green leafy vegetables, pomegranate, beetroot along with vitamin C rich food like guava, orange, musambi, lemon. Give a gap of atleast 30 minutes to 1 hour after your meals and then consume your coffee/ tea. Expose yourself to the sunlight for 10-15 minutes every day. Expose the mushrooms to the sunlight for 20-30 minutes before cooking. Include flax seeds, pumpkin seeds, sunflower seeds, chia seeds, walnuts, fatty fishes for omega 3 fats.
